### Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

Dry weather with above normal temperatures will continue through Monday. A front will move across the area on Tuesday bringing cooler and wetter weather conditions through mid-next week.

#### **San Francisco Weather:**

A brief warming trend is expected over the weekend as an upper level ridge builds near the West Coast and offshore flow develops. A significant change in the weather pattern early next week will result in much cooler weather by midweek along with precipitation. A large northwest ocean swell is expected to impact the coast over the weekend.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

The forecast area will have above normal temperatures through the weekend into Monday with breezy north to east wind tonight through early Monday. In addition, there will be a significant cool down and a threat of some precipitation for Tuesday into Friday.

#### **Hanford Weather:**

Mostly clear skies with above average temperatures will continue into Monday. A cooling trend will begin early next week and continue through the end of the work week. Additionally, rain will possible generally from Fresno County northward on Wednesday.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

A warming trend and a decrease in marine layer cloud coverage is expected through Columbus Day as high pressure builds into the Great Basin. Cloudier and cooler weather along with some patchy drizzle is expected for the middle of next week as a trough of low pressure moves into the West Coast. Some warming is expected for the end of the week following the passage of the trough.

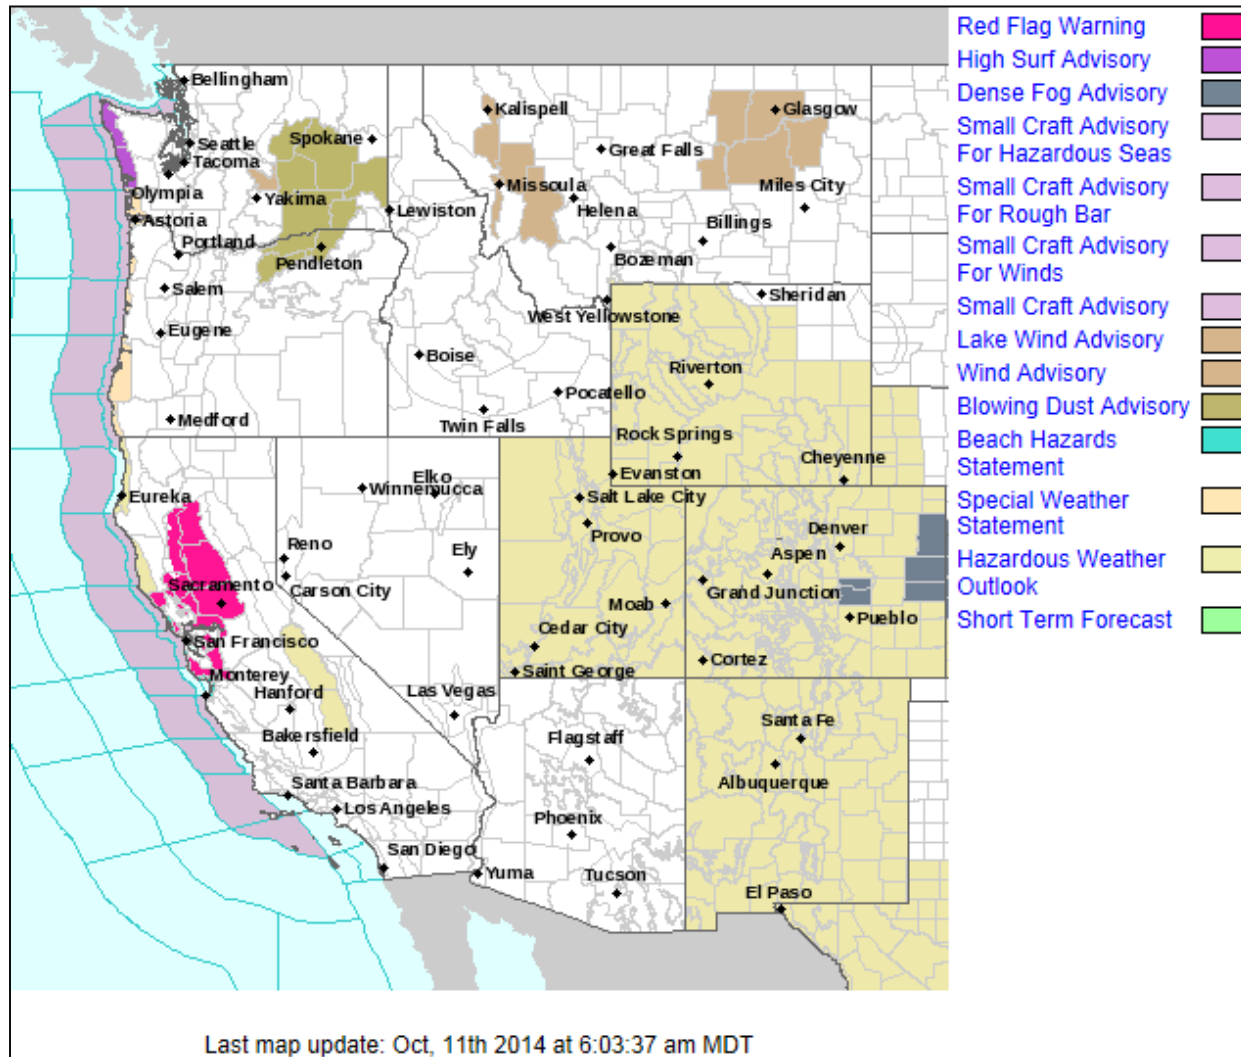

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Building high pressure over the southwest will bring warm, dry weather through Monday with above average temperatures for mid-October. On Tuesday, a low pressure trough will deepen along the West Coast for much cooler weather through Thursday along with a deep marine layer and gusty west winds through the mountains and deserts. Some drizzle will be possible on Wednesday near the coast.

#### **Southeast California Weather:**

Northwesterly flow will persist across the region through the first half of the week resulting in mostly clear skies and near normal temperatures. A slight cooling trend will take place late in the week as a dry trough moves through the area but temperatures will still remain within a few degrees of normal.
